Ds. E. J. Marrock & —I am most happy to inform you of the benefit I have received from your treatment and Analytical Remedies. I When I called upon you in October, 1853, heither my friends nor myself had any hope of my recovery. I had employed several physicians, and taken a great deal of medicine, but without any benefit. At that time I was obliged to be bulstered up in bed; I was affected with great difficulty in breathing, fainting, severe pain in my left side over the region of the heart and dropsy of the chest, complicated with general dropsy, and I was in very great distress from head to foot. Besides all this one of my hands was contracted and sithered, and had been so for four years, and I had great fluttering of the heart and aumbuses of the extremities. Upon consulting with you you gave me little succuragement, but said you would do the best you could for me. Now, Doctor, I am happy to inform you, I am enjoying very good health, my bloating has all left me, and my hand is completely restored.—I can use it as well as the other. I feel I cannot say too much in favor of your remedies; had it not been for them I believe I should long since, been in my grave. I do really advise the sick to use your remedies without delay. Doctor, may you live long to heal the sick.
